TRI-TANDEM

SIDE BY SIDE (Shown w/ optional armrests)

FOLDING TRI-TANDEM

The **Side by Side Team Dual Trike** offers a riding experience like no other trike! Unlike conventional tandems, the Team Dual Trike lets you sit next to your partner, so you can really share the riding experience together. It allows two riders of different size and ability to ride together at their own pace. How? With twin independent transmissions and a split rear axle, each rider turns their own pedals and wheel! One rider can rest and the other can still pedal and go, or pedal at two different speeds! The Team Dual Trike is perfect for facility tours, physically challenged / companion situations, rental fleets, and vacation resorts.
