

WORKSMAN BUSINESS CYCLES™

2013 Factory Direct Price List

Price list FDBCP2013

Worksman Business Cycles – The Worlds Leader in Industrial Cycles “Proudly made in the USA since 1898!”

This price list covers the world-famous *Worksman Business System™ Including Worksman Movers, Adaptables, Bicycles, Quads and more. Fuel Free, Economical Personnel Movement Vehicles.*

Worksman Adult Recreational Cycles and Food vending Carts are shown on other price lists.

Terms and Conditions of Sale

Payment: Net 10 for approved accounts, Credit Card (Visa, Master Card, or American Express) or Check in Advance. Sorry, no CODs. New dealers must provide state resale certificate. Monthly late fees are applied to past-due accounts. Severely past-due accounts will be sent to collections, with the buyer paying all legal fees. \$30 charge for bounced checks. New accounts are paid either CIA or Credit Card. Various models can be combined to receive quantity discounts. Worksman Trading Corporation assigns dealers at its sole discretion.

Freight: Prices shown are FOB Ozone Park, NY. After goods are consigned to the freight carrier, Worksman's responsibility ceases. In the event of damage or loss during shipping, claims should be made directly with the shipping company.

Delivery Time: Please check with the Sales Department for lead times, and let us know of any special requirements. Worksman will not be responsible for consequential damages as the result of a late shipment.

Returns: All returns must be authorized and shipped back within 15 days prepaid to Worksman. Returns are subject to a 15% restocking fee. Returns must be unopened and in original packaging. Returns are approved or denied at seller's discretion. Failure to get authorization could result in full loss of return credit. Custom cycles cannot be returned.

Specifications and prices are subject to change without notice.

Miscellaneous: Missing parts and freight shortages should be reported to Worksman within 15 days to rectify the problem. It is recommended that you speak to a Worksman Sales Consultant prior to placing your order to assure that you are ordering the appropriate cycle. Some Worksman Cycles ship mostly assembled. Worksman reserves the right to change prices and specifications without notice. Worksman reserves the right to accept or reject orders and drop-shipments at our sole discretion. Worksman Cycles has the right to limit within reason the number of prepaid shipments to rectify a warranty issue. All rights reserved.

Warranty: Worksman Cycles have a 1 year warranty on the frame and 90 days on parts.

WORKSMAN 2013 Factory Direct MOVER TRICYCLE PRICE SHEET

M2020-CB

M2026-CB

M2626-CB(most popular)

STRETCHED MOVER

The Worksmen Mover is the best industrial tricycle available. That's a strong claim to make, but the Mover can back it up. The Mover features a one-piece welded frame with a gigantic mainframe beam. Everything on the Mover is over-built: the chains are extra-thick (3/16"), and the crank housing, seat tube, and rear axle are reinforced. The Mover makes other so-called industrial tricycle brands look like toys. Mover rear axles are 7/8" machined solid steel linked to Shimano coaster brakes, creating an extremely durable drive train. The wheel design is a Worksmen exclusive and has the Worksmen Clincher rolled edge and 11g (.120") spokes for added strength. No other trike comes close to the toughness of the Mover!

ADP-CB

ADB-CB

ADBB-CB

(Adaptable tricycles shown above with optional rear fenders.)

ADC-CB

Versatility has made the Adaptable tricycle series the best selling line of Industrial Tricycles in the world today! Aptly named, the "Adaptables" are available in many different configurations: as a platform trike, fitted with an optional cabinet, or equipped with one of several baskets. The Adaptables are the perfect choice for companies where quick response to changing conditions is critical, such as maintenance and repair, trouble shooting, or plant / grounds security. Thousands of organizations, from aerospace companies to the US Military, rely on these rugged performers every day. You'll see what we mean by "Workman Tough" when you put your Adaptable through its paces.

WORKSMAN 2013 Factory Direct FRONT-LOADER TRICYCLES PRICE SHEET

STPT

MODEL U

SUD

WTC4X4

The Worksmen Front Loaders set the standard for heavy-duty cycle applications with an amazing one-quarter ton total payload capacity. The 14 gauge main bar, coupled with a 1" diameter solid steel axle and ball-bearing hubs, handles loads that would crush an ordinary cycle. And the double leaf springs, massive machined steering spindle and head lug begs for the toughest loads. For extra safety, all Front Loaders are equipped with a "super-duty" rear coaster brake and 11 gauge spoke wheels. (STPT and WTC4X4 shown w/ optional fenders.)

MODEL	DESCRIPTION	BRAKE	PRICE (MSRP)	QUANTITY DISCOUNTS
U	Utility Trike w/ Platform w/ 31" Axle	Coaster Brake	\$899	Fleet Buyers may contact us for price quotes

WORKSMAN 2013 Factory Direct INDUSTRIAL BICYCLES PRICE SHEET

INB and ING

LGB and LGG

LGP-S

OPTIONAL FRONT BASKET (G2)

The Classic American Bike – but with a big difference. These are built “Worksman Tough” for day in, day out use. Thousands of these rugged performers report to work each morning – sometimes after working all night! From shipyards to tie lots, newspaper delivery to the US Postal Service, country club to country store, Worksman Industrial Bikes keep delivering. Credit the fully lugged frame, “knock-out” industrial front hubs, “posi-quad” welding, and steel clincher rims. These and dozens of other “Worksman Tough” features are what make the “Industrials” the bike of choice among leading companies the world over. And to prove that extraordinary toughness need not mean ordinary looks, the Industrials carry the classic American profile, set off beautifully by lots of chrome, standard or optional paint choices, and cantilever frames.

MODEL	DESCRIPTION	BRAKE	PRICE (MSRP)

WORKSMAN 2013 EAGLE & EXECUTIVE 24" TRICYCLES PRICE SHEET

EAGLE

ECONOMY
MODELS!

EXECUTIVE

The Eagle and the Executive perfectly fill the need that some companies and individuals have for inexpensive, light-duty or medium-duty tricycles. Both the Eagle and the Executive feature two-piece, bolt-together, easy step through frames, making them ship quickly and economically via UPS. Both models include rear baskets, super-comfortable 13" extra wide seats with extra cushioning and are available in durable, highly visible Safety Yellow, Safety Orange, Silver, or Electric Blue color choices. The Eagle and Executive can also be customized for individual cycle needs.

For light-duty service, the Eagle is the least expensive Worksmen tricycle available. It is perfect for the employee on the go who needs to get from Point A to Point B with light packages. It features a 3/4" axle, 24"x1.75" white-wall tires, 14 gauge (.080") spokes, and has a 250 pound weight capacity.

For medium-duty service, the improved Executive now features a two-piece, bolt-together frame. When employees need to transport light cargo, the Executive is the perfect choice. It features a 3/4" axle, 24"x2.125" black-wall tires, 11 gauge (.120") spokes, an extra wide seat with springs, and has a 300 pound weight capacity. Puncture resistant tubes are standard on the Executive Trike! (Optional fenders are shown above.)

FS24E	Rear Fender Upgrade (Executive)	\$65	Protects rider and cycle from debris.

*Non-optional Eagles & Executives are usually kept in stock for immediate shipment. Options may add to the lead-time. Eagles & Executives ship via UPS – assembly is required. You can have your Eagle or Executive shipped mostly assembled via truck. (See Note.)

While the Eagle and Executive tricycles are very well suited for light and medium-duty industrial use, it has always been the Worksmen standard to overbuild, believing that an industrial cycle could never be 'too heavy-duty.' In other words, we always recommend our heavy-duty industrial tricycles like the Mover or the Adaptable for light, medium, or heavy-duty use. However, since budgets and cargo needs sometimes justify the use of lighter-duty tricycles, the Eagle and the Executive were born. Quite frankly, other bike companies seem to be satisfied taking a recreational-grade tricycle, painting it yellow, and calling it "industrial." This has led to many disappointed customers who continually break their "industrial" cycles because they are not up to the job. If you feel that you might be pushing the weight capacities, we highly recommend the Mover or Adaptable.

Note: Prices shown are subject to change without notice. PRICES DO NOT INCLUDE FREIGHT. If you would like your cycle mostly assembled, please add \$50 to ship via truck. (Only minor front fork assembly is required when shipping by)

WORKSMAN CYCLES ACCESSORIES and Upgrades: Worksmen offers a complete line of accessories for added safety and customization.

PART #	DESCRIPTION	PRICE	WHY SHOULD YOU GET IT?
